

CDWCWG Harmonisation subgroup 4th meeting

Notes 28.5.2026

1. Review document yearly and make a new version if needed
2. Bias correction to be added as a new matter in matters-section
3. ADD NEW Recommendation of file-naming: not to be used the dates or time-stamps. Actions: to check what is naming convention of S-102.
4. ADD Recommendation for Geographic Identifier for sub-area naming (now it is in the other matters number 17): recommended to use level-3 names.

[Names for sub-areas in the Baltic Sea](#)

5. Question about file-sizes. Thomas will check with PRIMAR how big the files can be to be uploaded to their system without creating any performance problems.
6. Thomas will share the validation report produced by SMHI in the Baltic Sea e-Nav-project
